DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 4-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Newberg et al.(US 5,296,197) or Newberg (US 5,786,209).

Both the references of Newberg et al. and Newberg discloses a valve installed on an inclined ferrule having an internal drainage path with an angle of declination greater than an angle of inclination of an axis of an internal bore of the ferrule (See Figure 17 of Newberg et al. and Figure 22 of Newberg).

3. Claims 4-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Woodham et al.(US 2,516,097).

The reference of Woodham et al. discloses a valve (3) installed on an inclined ferrule (2) having an internal drainage path (16) with an angle of declination greater than an angle of inclination of an axis of an internal bore of the ferrule (See Figure 1).

Allowable Subject Matter

Art Unit: 1744

4. Claims 1-3 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-3 are allowable because the prior art of record fails to teach or fairly suggest a valve of the claimed structure wherein the orifice or drainage trough is dimensioned and positioned based on the dimensions and structure of the ferrule in which it is to be employed as dictated by the claimed formula.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
